Depending on the type of activity, certain supporting documents must be provided as proof: for project management and implementation – description of activities and outputs in the final report; Transnational project meetings/Multiplier events/Learning, teaching and training activities – attendance list or individual attendance certificates signed by the receiving organization, participants list signed by the participants and the receiving organization, detailed agenda and documents used or distributed at the meeting; Intellectual outputs – proof of the intellectual output produced, proof of the staff time invested (timesheet), employment contracts/voluntary work/SME ownership etc.

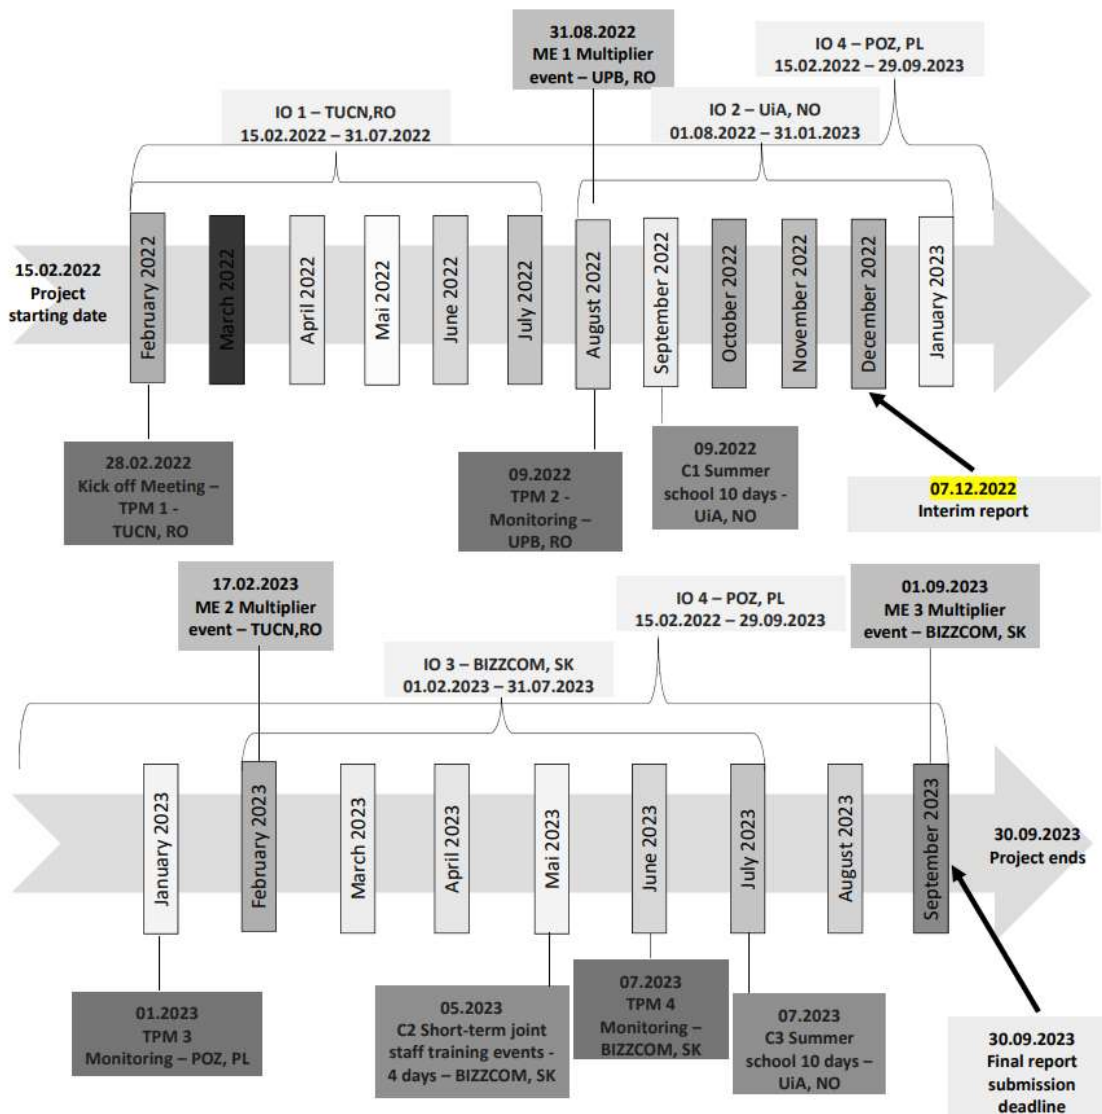

By the end of March 2022, an official document, from each partner, stating the formal link of the organization must be sent to the coordinator.

After a coffee break, the following topics were reviewed: the role of the leaders of the intellectual outputs; tools (Microsoft Teams, WhatsApp group); validation of the distribution of tasks, where each partner presented the plan for each activity assigned to them; calendar of the project/deadlines/ milestones. These topics were discussed before the lunch break.

The next topic talked about was the state of the production of the intellectual outputs followed by the continuation of the presentation made by partners, in which they presented the plans for each activity they own.

At this meeting all the partners brought the declarations for the persons who attended TPM 1. These declarations were verified to be correctly written and signed. Based on these declarations, TUCN prepared the certificates of attendance for each participant. Also, the participant list was checked and signed by each participant.
