

## Aspects related to Project Management of the EMERALD

### Transnational Project Meeting – PUT Poznan -day 2 - 31st of January 2023

Associate Prof.dr.eng. Razvan Pacurar

Department of Manufacturing Engineering

Faculty of Industrial Engineering, Robotics and Production Management

Technical University of Cluj-Napoca, Romania

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## Content

- 1. To DO – main conclusions after yesterday meeting / discussions**
- 2. Setting of details related to the next following activities to be organized on the EMERALD project in 2023**
- 3. Financial, administration and reporting documents**  
**- contracts, timesheets, reporting documents,**  
**drive, website**

Google

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## 1. TO DO – main conclusions after yesterday meeting / discussions

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## TO DO – main conclusions after yesterday meeting / discussions

**Interim report** – time of submission – 07.02.2023 – Razvan (TUCN)

**Financial balance** – expenses in the period 15.02.2023 – 07.12.2023 (bank account extras / budget spent on categories) – these are **annexes** to be uploaded together with the report For the interim report – time limit – **20.02.2023** – IO1 course missing – 3D printing (PUT),

Bio-mechatronics (UiA), Computer programming (Bizzcom)

For IO2 – toolkits – UiA – provided links + short description of the toolkit (instructions)

**March 2023 – pdf ready – to be uploaded on drive / website**

- Materials selection (Diana – UPB + PUT – Justyna / Filip)
- AR (based on the webinar – in written form) – Bizzcom / PUT (Filip)
- Assembling and testing – PUT (Filip)

**Multiplier event – Cluj – 17.02.2023** – attending / presentations to be relied on IO2 toolkits  
Filippo – 5 minutes – recording/presenting of robotic arm (summer school)

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## TO DO – main conclusions after yesterday meeting / discussions **IO3- Bizzcom** –

360 photos + Kuula + monitoring / organizing of virtual platform

- we will rely on the platform that we have already / with 360 photos / Kuula application / focus on teaching methods (webinars / AR / VR / games / pdf / etc.) promoting of institutions is also one result that is coming out of it

**IO4** – dissemination plan / needed from Filip / indicators – papers published with UiA

- other articles are considered results of the project / disseminating activities are needed / case studies / e-book / e-toolkit / patent? / monitoring activities / responsibilities / organizing for reaching all KPIs
- Modern Power Systems – IEEE conference organized in Cluj in 21-23 June 2023 – Filippo / TUCN – chair of one section?

**UPB** – short report about ARMIN project / how we are relying on it

## 2. Setting of details related to the next following activities to be organized on the EMERALD project in 2023

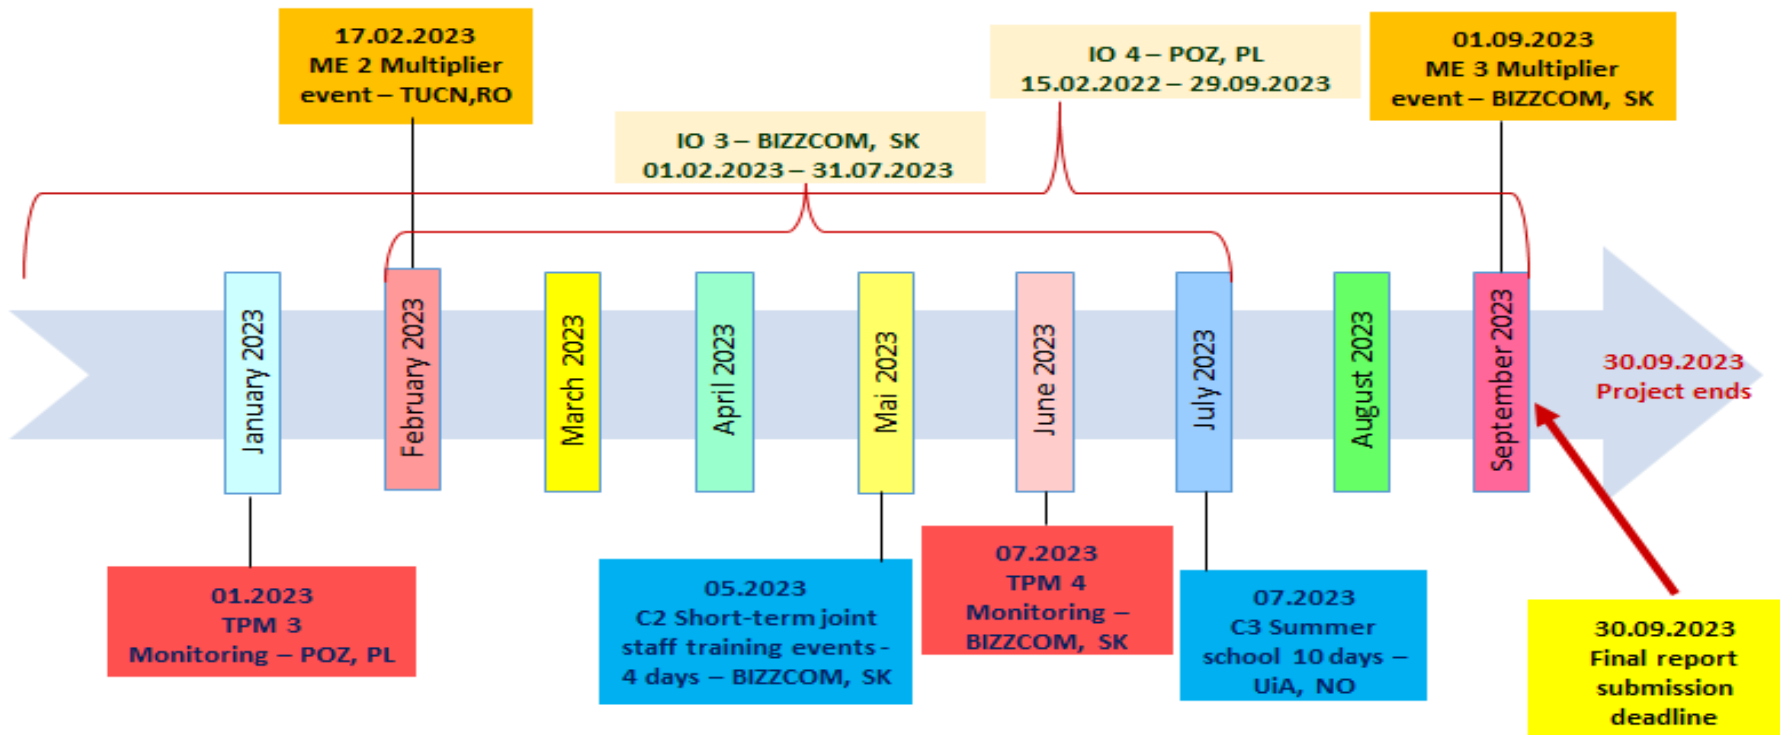

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## EMERALD - Summarizing the Calendar of the project / deadlines / milestones

This is the diagram with planned activities as stated in the proposal

-Some changes were discussed in Bucharest like organizing Summer school in Norway in **September 2023 (not July)**

-**Constrains** – ME activity must be organized after IO is ending / with the aim of disseminating the results!

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## LTT activities

### Intensive Programmes for higher education / Short-term joint staff training events

	ORGANIZING INSTITUTION	PERIOD / NUMBER OF DAYS	SENDING ORGANISATION	STUDENTS	PROFESSORS	INVITED STAFF	
C 1	University of Agder, NO	SEPTEMBER 2022 / 10 DAYS	Technical University of Cluj-Napoca	5	4	-	UiA – 5 extra participants TOTAL : 30 participants
			University Politehnica Bucharest	5	2	-	
			University of Agder	-	-	-	
			Bizzcom s.r.o.	-	-	2	
C 2	Bizzcom s.r.o., SK	MAY 2023 / 4 DAYS	Technical University of Cluj-Napoca	-	4	-	Bizzcom s.r.o. – 4 extra participants TOTAL:20 participants
			University Politehnica Bucharest	-	4	-	
			University of Agder	-	4	-	
			Bizzcom s.r.o.	-	-	-	
			Poznan University of Technology	-	4	-	
C 3	University of Agder, NO	JULY 2023 / 10 DAYS	Technical University of Cluj-Napoca	5	4	-	UiA – 5 extra participants TOTAL : 30 participants
			University Politehnica Bucharest	5	2	-	
			University of Agder	-	-	-	
			Bizzcom s.r.o.	-	-	2	
			Poznan University of Technology	5	2	-	

Do we have all documents related to Summer school organized by UiA uploaded on drive?

LTT event to be organized in May 2023 in Bucany (4 days - excluding traveling days)

Summer school event to be organized in Sept. 2023 in Grimstad (8 days - excluding traveling days)

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## LTT activities

**C2 : Short-term joint staff training events – 3D printing and bio-mechatronics**

**Duration : 4 day(s)**

**Country of Venue : Slovakia**

**Total number of Participants : 20**

**Date: May 2023**

**The International summer school organized by the BIZZCOM company**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Activity :** > is focused on the use and testing the functionality of e-virtual laboratory (e-learning) platform developed by the EMERALD consortium for teaching activities related to the manufacturing of biomimetic mechatronic systems by 3D printing

**The target groups:** > professors > other people / institutions (stakeholders) involved in research activities related to the developing, manufacturing and testing of new biomimetic mechatronic systems made by 3D printing, for people with special needs

Testing the functionality of virtual laboratory platform developed within IO3 related to: different scenarios in VR / AR / Mixed Reality applications for people with special needs

## EMERALD – Monitoring Transnational Meeting - TPM 4 - **June 2023** - BIZZCOM company, SK

The event will be organized at the **BIZZCOM company (SK)** together with the Executive team (1 representative of each institution that is involved in the consortium) + 1 representative of the Technical Team,

with **the main goals**:

- > to discuss about the finalizing of virtual laboratory platform that is expected to be finalized at the end of July 2023 within IO3
- > to discuss about the case study reports that have to be finished until September 2023
- > to monitor and discuss the status of open access book / toolkit manual / patent submission / diploma projects / academic papers that are expected to be made with the support of the medical institutions and mentors / co-mentors of the EMERALD consortium.
- > aspects related to final scientific / dissemination / financial report will be discussed prior to this meeting as well, so as all planning about final delivery reports will be made in due time prior in advance ( 1 and half months before) for preliminary checking

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. ## Multiplier events

**ME3 - EMERALD personalized and project learning methods for Higher education**

**Start Date : 01 Sep 2023**

**End Date : 01 Sep 2023**

**Country of Venue : BIZZCOM company ,Slovakia**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Event Description :** to present and share the results reached in intellectual output 3, e-learning virtual laboratory (e-learning platform) & and intellectual output 4 related to e-case studies

**Organized free of charge ! one day !** and the participants are required to register in the preamble. **Expected number of attendees is about 40 people.**

**The target groups :** ➤ are colleagues, teaching staff, students, other people involved in Higher education in their respective organizations

Intellectual Outputs Covered : IO3 and IO4

**The aims of ME3 are:**

- personalized and project learning methods can be used for teaching in higher education using the EMERALD virtual laboratory platform
- presenting and experiencing of the virtual laboratory / AR / mixing AR applications developed by EMERALD consortium
- conclusions, future perspectives of implementing and transferring of the results, publications, dissemination, new project proposals
- future activities/perspectives of EMERALD consortium in digital learning & teaching, implementing & transferring of the results

**Virtual platform has to be ready functional so as people could test it and provide excellent feedbacks to us**

**The ME is organized by BIZZCOM company, SK on 1<sup>st</sup> of September 2023**

**Companies from SK to be invited + STU students**

### PROPOSED AGENDA

9:00 - Registration of the participants.	12:00 EMERALD project perspectives in implementing, disseminating and transferring of the results
9:30 - Welcome to the multiplier event at BIZZCOM company (Slovakia)	12:30 Round table, Q & A, final conclusions
10:00 Presenting on how personalized and project teaching methods can be used in teaching in higher education (using the EMERALD resources)	14:00 Live experiencing of the EMERALD VR/ AR e-learning platform
10:30 Overall presentation about e-virtual laboratory   e-learning platform developed by the EMERALD consortium	
11:30 Presenting of EMERALD consortium opportunities (case studies developed based on project base learning methods for people with special needs (practical using of	

**Agenda + objective of the event has to be related to dissemination of the results reached in IO3 (virtual laboratory platform) on EMERALD – prepared report + the agenda must reflect that!!!**

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## LTT activities

Summer  
School -  
UiA  
September 2023

8 days (not 10

Accommodation  
at Bia apartments?

**C3 : Intensive Programmes for higher education students - 3D printing and bio-mechatronics**

Duration : 10 day(s)

Country of Venue : Norway

Total number of Participants : 30

Date: July 2023

The 2nd International summer school organized by the University of Agder.

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**The target groups:** ➤ professors (from EMERALD consortium and engaged in technical activities) & students  
Organized free of charge ! the participants are required to REGISTER in the preamble.

**Aims:** to familiarize the attendees with the personalized and project based teaching methods used in Higher education and the efficiency of these methods in using the EMERALD project resources, especially e-virtual laboratory (e-learning platform) AR / VR / mixed reality applications for getting knowledge and practical skills in developing of new biomimetic mechatronic systems by 3D printing technologies and specific applications related to the programming of biomimetic mechatronic systems AR / VR applications.

**Students** will be able first to understand the basic principles that are related to CAD/CAE, manufacturing, programming and testing of biomimetic systems using e-virtual laboratory (e-learning) platform.

**Professors** will present on a course the basics of different case study that is being prepared, with the particularities involved in the case when biomimetic mechatronic systems are required to be materialized for people with special needs, emphasizing the facilities of the virtual laboratory (e-learning platform / AR / VR applications).

In this way the easiness in using the e-learning platform of the EMERALD consortium will be checked based on the feedbacks provided by students.

Testing and experiencing the virtual laboratory platform developed within IO3 related to:  
different scenarios in VR / AR / Mixed Reality applications for people with special needs

Draft of the statement of formal connection - documentation for intellectual outputs

Name: TOPA  
Surname: VASILE  
Institution: Technical University of Cluj-Napoca  
Date: 30.06.2020

STATEMENT

With which I, stated above, as legal representative of the institution, state that the documentation that is given as a proof of formal connection between institution and staff member: PĂCURAR RĂZVAN IOAN, who worked on assignments connected to the production of intellectual outputs for project: 3D and Virtual Reality Technologies for VET is in accordance with national law of Romania, rules of the Erasmus+ programme and provisions of the Grant Agreement no.: 2019-1-HR01-KA202-061006.

signature

TECHNICAL UNIVERSITY  
OF CLUJ-NAPOCA, ROMANIA

STATEMENT REGARDING ERASMUS KA 2 PROJECT  
"3D and Virtual Reality Technologies for VET"  
2019-1-HR01-KA202-061006

According to internal regulations of the Technical University of Cluj-Napoca, contracts for all persons involved in ERASMUS KA 2 projects are registered and are raising according to the rules, terms and regulations that are stated in these contracts. Contracts related to ERASMUS KA 2 projects are different as compared to the "main contracts" that are registered between the employees and the Technical University of Cluj-Napoca as institution. In these terms, there are no any restrictions imposed by the Technical University of Cluj-Napoca for the employees engaged in ERASMUS KA 2 projects to develop activities and report timesheets in these contracts in the periods when from the "main contracts" point of view people involved in ERASMUS KA 2 projects are taking activities in "holiday periods". The time limit of 4 hours/day will be respected in the case of each person involved in the project in the entire period of signed contracts and no any activities will be reported during National holidays and weekends in the ERASMUS KA 2 projects, according to the internal regulations of the Technical University of Cluj-Napoca.

Sincerely yours,  
Prof.dr.ing. Vasile TOPA

## Intellectual outputs (quick overview)

Intellectual Output: IO1 - EMERALD e-book for developing of biomimetic mechatronic systems

☑ ended

Start Date : 15 Feb 2022 → End Date : 31 Jul 2022

Responsible: Technical University of Cluj-Napoca

Intellectual Output: IO2 - EMERALD e-toolkit manual for digital learning in producing biomimetic mechatronic systems

☑ ended

Start Date : 01 Aug 2022 → End Date : 31 Jan 2023

Responsible: University of Agder

Intellectual Output: IO3 - EMERALD e-Jearning VR / AR platform for programming and using biomimetic mechatronic systems

⚠ in progress

Start Date : 01 Feb 2023 → End Date : 31 Jul 2023

Responsible: Bizzcom company

Intellectual Output: IO4 - EMERALD a-case studies for project based learning method used in developing, testing and manufacturing of new biomimetic mechatronic systems by 3D printing technologies

⚠ in progress

Start Date : 15 Feb 2022 → End Date : 29 Sep 2023

Responsible: Poznan University of Technology

Be careful about the declared activities in the timesheets + deadlines+ to declare Integer numbers in the timesheets

Check all activities declared with the allocated budget for each IO

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## Project management and implementation

### Supporting documents:

Proof of activities undertaken and outputs produced will be provided in the form of a description of these activities and outputs in the final report. In addition, outputs produced must be uploaded by the coordinator in the EEA Platform and/or, depending on their nature, available for checks and audits at the premises of the beneficiaries.

Beside these, timesheets can be provided (similar to the ones used for Intellectual output reporting) – activities reported in the timesheets will be managerial activities

Bills and invoices in which it is clearly stated that the declared expenses were made from the EMERALD 21-COP-0019 project are also needed / all other documents stated in the contract (in case of acquisition of different equipment items) – these are very important since they will be needed for the final audit of the EMERALD project

**Bills / timesheets – with statement that “the expenses were supported from the EMERALD COOP-0019 project” – if it is the case? do we have them uploaded on drive?**

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

## Quick overview of the EMERALD project activities organized in 2022 / to be organized in 2023

TPM	Transnational project meetings
IO	Intellectual Outputs

## EMERALD – Monitoring Transnational Meeting - TPM 4 - **June 2023** - BIZZCOM company, SK

The event will be organized at the **BIZZCOM company (SK)** together with the Executive team (1 representative of each institution that is involved in the consortium) + 1 representative of the Technical Team,

with **the main goals**:

- > to discuss about the finalizing of virtual laboratory platform that is expected to be finalized at the end of July 2023 within IO3
- > to discuss about the case study reports that have to be finished until September 2023
- > to monitor and discuss the status of open access book / toolkit manual / patent submission / diploma projects / academic papers that are expected to be made with the support of the medical institutions and mentors / co-mentors of the EMERALD consortium.
- > aspects related to final scientific / dissemination / financial report will be discussed prior to this meeting as well, so as all planning about final delivery reports will be made in due time prior in advance ( 1 and half months before) for preliminary checking

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## Multiplier events

**ME 1 - EMERALD research base learning method for teaching**  
**Start Date : 2 Sept 2022**      **End Date : 2 Sept 2022**  
**Country of Venue : University Politehnica Bucharest, Romania**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Event Description :** 1st Multiplier event EMERALD project is the event organized in order to share the 1st intellectual result of a project with a larger audience. **Organized free of charge ! one day !** and the participants are required to register in the preamble. **Expected number of attendees is about 40 people.**

**The target groups :** > colleagues involved in teaching Computer Aided Design, Computer Aided Engineering, Computer Programming, Virtual Reality / Augmented Reality, Sensors and Electronics, Bio-Mechatronics, 3D printing and Rapid Tooling, Intelligent (smart) materials  
 > teaching staff, students, other partners, other people involved in Higher education teaching in their respective organizations, that are interested about developing, producing and testing of **biomimetic mechatronic systems** for people with special needs.

Intellectual Outputs Covered : IO1 - EMERALD e-book for developing of biomimetic mechatronic systems

**The aims of ME1 are:**

- To present the project in its conception, research approach, technological outputs and e-book (the results of IO1)
- To share the technological tools developed on the level of the EMERALD consortium.

**PROPOSED AGENDA**

9:00 - Registration of the participants.	12:00 - Interactive feedback: a short survey to collect first impressions and reactions.
9:30 - EMERALD coordinator's welcome / Introduction to the activities.	13:00 - Presentation of 1st Intellectual Output: IO1 - EMERALD e-book for developing of biomimetic mechatronic systems
10:00 - Presentation of EMERALD Consortium	14:30 - Interactive feedback: a quiz to collect first impressions and reactions on IO1. Q&A time.
10:30 - Presentation of EMERALD project: a round table on WHAT WE MEANT; WHAT WE HAVE ACHIEVED; WHAT WE HAVE LEARNED;	

**Agenda + objective of the event has to be related to dissemination of the results reached in IO1  
(courses) on EMERALD – prepared report + the agenda is reflecting that?**

The ME is organized  
by  
**BIZZCOM** company,  
SK on 1<sup>st</sup> of September  
2023

Virtual platform  
has to be ready  
functional so as  
people could test it  
and provide  
excellent  
feedbacks

Companies from SK to  
be invited + STU students

Manufacturing Engineering  
Bio-Mechatronics & Robotics  
Mechanical & Bio-Mechanical Engineering  
Computer Science & Automation  
Science of Materials

More details  
[www.project-emerald.eu](http://www.project-emerald.eu)  
Registration until 30<sup>th</sup> of August 2022

Organized by the Politehnica University of Bucharest, Romania  
in cooperation with the EMERALD project consortium partners

EMERALD: European network for 3D printing of biomimetic mechatronic systems  
EEA & Norway Grant - Contract No. 21-COP-0019

### MULTIPLIER EVENT ON RESEARCH BASE LEARNING METHOD FOR TEACHING IN BIO-MECHATRONICS

POLITEHNICA University of Bucharest, Romania

Program

Date: 02.09.2022, between 9.00-14.00, UPB Central Library, Hall 2.2

Hour	Activity
9:00	Participants registration
9:15	Event opening Prof. Nicolae Ionescu (Politehnica University of Bucharest) / Prof. Tom Savu (Politehnica University of Bucharest) – Dep TCM
9:30	EMERALD Project Presentation Assoc. Prof. Diana Băilă (Politehnica University of Bucharest)
9:45	ANPCDEFP – Radu Stoika – EEA Norway grants – aims, particularities and opportunities
10:00	EMERALD Project – Main Aims, Actions and Activities of the project Assoc. Prof. Răzvan Păcurar (Technical University of Cluj-Napoca, Romania)
10:15	University of Agder Norway – Presentation Prof. Filippo Sanfilippo
10:30	Poznan University of Technology – Presentation Prof. Filip Gorski
10:45	LEYCOM Company – Presentation (Additive manufacturing of prostheses: SLM, SLA, SLS, FRESH 3D Printing, etc)

## Multiplier events

11:00	Coffee Break
11:15	Intelligent (Smart) Materials Prof. Zaharia Cătălin (Politehnica University of Bucharest)
11:45	ADMASYS Company – Presentation NUTECHNOLOGIES Company – Presentation
12:15	BIZZCOM Company - Slovakia Director Eng. Branislav Rabara
12:30	« Ilie Murgulescu » Institute of Physical – Chemistry – Romanian Academy - Bucharest Oxide nanomaterials used for sensors CS3 Eng. Oana Cătălina Mocioiu
13:00	Round table discussions about future potential collaboration in the bio-mechatronics / 3D printing domain - Assoc. Prof. Diana Băilă (Politehnica University of Bucharest)
13:30	Final conclusions
14:00	Lunch time

EMERALD project consortium partners:

## Multiplier events

**ME2 - Applied research teaching methods for Higher education**  
**Start Date : 17 Feb 2023**      **End Date : 17 Feb 2023**  
**Country of Venue : Technical University of Cluj-Napoca, Romania**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Event Description** : to present and share the results reached in intellectual output 2, related to the e-toolkit manual.  
**Organized free of charge ! one day !** and the participants are required to register in the preamble. **Expected number of attendees is about 48 people.**  
**The target groups** : ➤ are colleagues, teaching staff, students, other people involved in Higher education in their respective organizations  
 Intellectual Outputs Covered : IO2 - EMERALD e-toolkit manual for digital learning in producing biomimetic mechatronic systems

**The aims of ME2 are:**

- research base learning for teaching methods that can be used in higher education in the EMERALD project
- presenting of overall objectives of EMERALD project / presenting of the overall approach
- presenting of e-toolkit manual
- future activities/perspectives of EMERALD consortium in digital learning & teaching, implementing & transferring of the results

**PROPOSED AGENDA**

9:00 - Registration of the participants.	13:30 Presenting of e-toolkit manual for developing of new biomimetic mechatronic systems (aspects related to Bio-mechatronics)
9:30 - Welcome to the multiplier event at the Technical University of Cluj-Napoca	14:00 Presenting of a-toolkit manual for developing of new biomimetic mechatronic systems (aspects related to 3D printing and Smart materials)
10:00 Presenting on how research base learning for teaching mechatronics and 3D printing methods can be used in higher education (EMERALD project)	14:30 Conclusions, future activities of EMERALD consortium
10:30 Presenting of overall support e-courses / e-resources developed by the EMERALD consortium	14:45 Round table Q & A- EMERALD project perspectives in implementing and transferring of the results.
11 :30 Presenting of a-toolkit manual for developing of new biomimetic mechatronic systems (aspects related to CAD/ CAE)	
12:00 Presenting of e-toolkit manual for developing of new biomimetic mechatronic systems (aspects related to Computer programming)	

**Agenda + objective of the event has to be related to dissemination of the results reached in IO2 (toolkit manual) on EMERALD – prepared report + the agenda is reflecting that?**

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. MULTIPLIER EVENT on Applied Research Teaching Methods for 3D printing in Bio-Mechatronics

(organized by the Technical University of Cluj-Napoca, Romania)  
- draft preliminary agenda  
17<sup>th</sup> of February 2023

Session 1 - Higher Education institutions session	
8:30	Registration of participants to the Multiplier Event / Press conference (to be confirmed)
9:00	Opening and Welcome ceremony: Rector prof. <b>dr.eng. Vasile Topa</b> (Technical University of Cluj-Napoca) (to be confirmed), Vice rector prof. <b>dr.eng. Dan Măndru</b> (Technical University of Cluj-Napoca, Romania) + Dean of the Faculty of Industrial Engineering, Robotics and Production Engineering – Prof. Corina Birleanu + Head of manufacturing Engineering Department, Associate Prof. Adrian Trif (to be confirmed) + Mayors' Institute of Cluj-Napoca (to be confirmed)
9:20	25 years of success in the field of Additive Manufacturing for Medical Applications in Romania – prof. <b>dr.eng. Nicolae Bălc</b> and prof. <b>dr.eng. Petru Berce</b> (Technical University of Cluj-Napoca)
9:30	EMERALD project overall presentation – progress, actions, KPIs, perspectives / details about the event – Associate Prof. <b>Răzvan Păcurar</b> (Technical University of Cluj-Napoca, Romania)
9:40	EMERALD– Applied Research Teaching Methods for 3D printing in Bio-Mechatronics -e-toolkits for supporting people with amputated arms (Prof. Filippo Sanfilippo – University of Agder (Norway) – recorded presentation
9:45	EMERALD– Applied Research Teaching Methods for 3D printing in Bio-Mechatronics -e-toolkits for supporting people with amputated arms (Prof. Filip Gorski – Poznan University of Technology (Poland)
9:55	EMERALD– Applied Research Teaching Methods for 3D printing in Bio-Mechatronics - e-toolkits for supporting people with amputated arms (Associate Prof. Diana Băila – Politehnica University of Bucharest (Romania)
10:05	EMERALD– Applied Research Teaching Methods for 3D printing in Bio-Mechatronics - e-toolkits for supporting people with amputated arms (Branislav Rabara – BIZZCOM Slovakia
10:15	Coffee break
10:30	Trends and opportunities of 3D printing / bioprinting methods University of Cartagena – Roca Joaquin– Lola – Isidro – presentation
10:45	Trends and opportunities of 3D printing / bioprinting methods Medical doctors' presentations – Dr. Daniel Ostas – UMF - to be confirmed

11:00	Biomaterials trends and challenges – prof. Popa Cătălin (TUCN)
11:15	Innovations in Medical Robotics - prof. Doina Pislă (TUCN)
11:30	Coffee break
Session 2 – companies session – from evolution to revolution	
11:50	AdmasyS company (Ro) - presentation
12:00	Nu Technologies (Ro) - company presentation
12:10	CAD Works (Ro) - company presentation
12:20	Leykom - company presentation
12:30	symme.3D - company presentation
12:40	DMG Mori - company presentation
12:50	Pro4D Form – company presentation
13:00	Lunch break / press conference
Session 3 – demo room / companies exhibition / TUCN laboratories visit	
14:00	Visiting of TUCN laboratories - Demo room / companies exhibition – main hall, B-dul Muncii - National Centre of Innovative Manufacturing - Robotics and Mechatronics laboratories - CESTER
Session 4 – project opportunities /constituting of the EMERALD Network / clusters/ NGO / institutional / research / developing agencies session	
15:00	Premises of constituting the new EMERALD network for 3D printing in mechatronics Răzvan Păcurar (Technical University of Cluj-Napoca, Romania)
15:10	Vice rector Popescu Daniela – TUCN – opportunities of projects to be developed with companies – to be confirmed
15:20	HORIZON EUROPE calls – prof. Ovidiu Nemeş / Florin-Ioan ONIGA (vice rector TUCN) – to be confirmed
15:40	ERASMUS institutional projects, EuT+ and Norwegian grants – Ludmila Lutencu (TUCN)
15:50	Bianca Muntean – Transylvania IT Cluster - opportunities related to "Health" project calls
16:10	Oana Buzatu + Mirela Botezan – CREIC + new project calls and perspectives (Mayors' city institute) - to be confirmed
16:20	North West Regional Development Agency – Laviniu Chig and Cristi Otgon, INNO Platform Department and Cristian Otgon (Intelligent specialization Department)
16:40	Q&A with partners comments and discussions on the possibility of joining different projects / consortium / EU Networks
17:00	Closing words / ending of Multiplier Event

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## Multiplier events

**ME3 - EMERALD personalized and project learning methods for Higher education**

**Start Date : 01 Sep 2023**

**End Date : 01 Sep 2023**

**Country of Venue : BIZZCOM company ,Slovakia**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Event Description :** to present and share the results reached in intellectual output 3, e-learning virtual laboratory (e-learning platform) & and intellectual output 4 related to e-case studies

**Organized free of charge ! one day !** and the participants are required to register in the preamble. **Expected number of attendees is about 40 people.**

**The target groups :** ➤ are colleagues, teaching staff, students, other people involved in Higher education in their respective organizations  
Intellectual Outputs Covered : IO3 and IO4

**The aims of ME3 are:**

- personalized and project learning methods can be used for teaching in higher education using the EMERALD virtual laboratory platform
- presenting and experiencing of the virtual laboratory / AR / mixing AR applications developed by EMERALD consortium
- conclusions, future perspectives of implementing and transferring of the results, publications, dissemination, new project proposals
- future activities/perspectives of EMERALD consortium in digital learning & teaching, implementing & transferring of the results

### PROPOSED AGENDA

9:00 - Registration of the participants. 9:30 - Welcome to the multiplier event at BIZZCOM company (Slovakia)	12:00 EMERALD project perspectives in implementing, disseminating and transferring of the results
10:00 Presenting on how personalized and project teaching methods can be used in teaching in higher education (using the EMERALD resources)	12:30 Round table, Q & A, final conclusions
10:30 Overall presentation about e-virtual laboratory   e-learning platform developed by the EMERALD consortium	14:00 Live experiencing of the EMERALD VR/ AR e-learning platform
11:30 Presenting of EMERALD consortium opportunities (case studies developed based on project base learning methods for people with special needs (practical using of	

**Agenda + objective of the event has to be related to dissemination of the results reached in IO3 (virtual laboratory platform) on EMERALD – prepared report + the agenda must reflect that!!!**

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## LTT activities

**C2 : Short-term joint staff training events – 3D printing and bio-mechatronics**

**Duration : 4 day(s)**

**Country of Venue : Slovakia**

**Total number of Participants : 20**

**Date: May 2023**

**The International summer school organized by the BIZZCOM company**

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**Activity :** ➤ is focused on the use and testing the functionality of e-virtual laboratory (e-learning) platform developed by the EMERALD consortium for teaching activities related to the manufacturing of biomimetic mechatronic systems by 3D printing

**The target groups:** ➤ professors ➤ other people / institutions (stakeholders) involved in research activities related to the developing, manufacturing and testing of new biomimetic mechatronic systems made by 3D printing, for people with special needs

Testing the functionality of virtual laboratory platform developed within IO3 related to: different scenarios in VR / AR / Mixed Reality applications for people with special needs

# European Network For 3D Printing Of Biomimetic Mechatronic Systems

Working together for a **green**, **competitive** and **inclusive** Europe

## LTT activities

Summer  
School -  
UiA  
September 2023

VR / AR platform

**C3 : Intensive Programmes for higher education students - 3D printing and bio-mechatronics**

Duration : 10 day(s)

Country of Venue : Norway

Total number of Participants : 30

Date: July 2023

The 2nd International summer school organized by the University of Agder.

Robot arm  
programming

Participating Organizations : University Politehnica Bucharest, Technical University of Cluj-Napoca, University of Agder, Bizzcom s.r.o., Poznan University of Technology

**The target groups:** > professors (from EMERALD consortium and engaged in technical activities) & students  
Organized free of charge ! the participants are required to REGISTER in the preamble.

**Aims:** to familiarize the attendees with the personalized and project based teaching methods used in Higher education and the efficiency of these methods in using the EMERALD project resources, especially e-virtual laboratory (e-learning platform) AR / VR / mixed reality applications for getting knowledge and practical skills in developing of new biomimetic mechatronic systems by 3D printing technologies and specific applications related to the programming of biomimetic mechatronic systems AR / VR applications.

Logistics

8 days (not 10  
days) –  
excluding  
traveling days

**Students** will be able first to understand the basic principles that are related to CAD/CAE, manufacturing, programming and testing of biomimetic systems using e-virtual laboratory (e-learning) platform.

**Professors** will present on a course the basics of different case study that is being prepared, with the particularities involved in the case when biomimetic mechatronic systems are required to be materialized for people with special needs, emphasizing the facilities of the virtual laboratory (e-learning platform / AR / VR applications).

In this way the easiness in using the e-learning platform of the EMERALD consortium will be checked based on the feedbacks provided by students.

Accommodation  
at Bia apartments?

Testing and experiencing the virtual laboratory platform developed within IO3 related to:  
different scenarios in VR / AR / Mixed Reality applications for people with special needs

IMPORTANT FEEDBACKS

## Budget reallocation in between categories if needed

### 5 budget lines with unit costs

1. Project management and implementation
2. Transnational project meetings
3. Intellectual outputs
4. Multiplier events
5. Learning, teaching, training activities

#### Agency requirement:

Communication to be done not in direct contact with the Agency, but through the Leading partner / answer will come back in the same way!

Logo of EMERALD not be used on website / promoting materials!

**NB: 20% flexibility between the lines except for line 1 which can not be increased**

**Reallocation is done not at the level of individual partner, but whole consortium with clear explanations / justifications – why the expense was not made like in the proposal / which is the added value for the new category where budget is re-allocated (what was made extra than described in the proposal!**

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. **3.1** Finanțarea va fi în **sumă maximă de 198810 EUR**, respectiv 983373.90LEI<sup>2</sup>. 85% din acest buget (168988.50 Euro, respectiv 835867.82LEI) reprezintă grant SEE iar 15 % (adică 29821.50 Euro, respectiv 147506.08 LEI ) reprezintă cofinanțarea din bugetul național.

Capitole bugetare	Suma alocată (EURO)
Managementul și implementarea proiectului	29250
Mobilitati transnaționale de scurtă durată	80420
Produse intelectuale	75540
Evenimente de multiplicare	13600
Sprijin pentru nevoi speciale	0
Costuri excepționale	0
<b>TOTAL</b>	<b>198810</b>

<sup>2</sup> Conform curs InforEuro: 1Eur= 4.9463 Lei

**3.4** Fără a deroga de la Articolul 12, de la baremele menționate pentru fiecare categorie bugetară în Anexa II și cu condiția ca Proiectul să fie implementat conform prevederilor din Anexa I, exista posibilitatea de a ajusta bugetul prezentat în art.3.1, prin transferuri între diferite categorii bugetare, fără ca această ajustare să fie considerată o modificare a Contractului, în sensul Articolului 12, cu condiția ca următoarele reguli să fie respectate:

a) se pot transfera până la 50% din fondurile alocate următoarelor categorii bugetare: Managementul și implementarea proiectului, Rezultate intelectuale, Evenimente de multiplicare, Activități de mobilitate de scurtă durată și Costuri excepționale către oricare altă categorie bugetară, cu excepția categoriilor bugetare Managementul și implementarea proiectului și Costuri excepționale. Aceste transferuri nu implică transmiterea unei notificări către OP.

b) conform celor de mai sus, orice transfer care depășește 50% din capitolul bugetar din care se va efectua transferul implică transmiterea de către PP a unei notificări<sup>3</sup> către OP prin care se solicită aprobarea efectuării modificării bugetare.

**3.6** Pentru a fi considerată eligibilă, orice cheltuială trebuie să fie efectuată în perioada contractuală menționată în art. 2, să fie menționată în propunerea bugetară din Anexa I, să fie proporțională și necesară pentru implementarea proiectului, să folosească scopului proiectului, să fie identificabilă și verificabilă în sistemul contabil al PP respectând legislația națională în domeniu.

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

**3.7** În cadrul Mecanismului Financiar al Spațiului Economic European 2014-2021, Proiecte de Cooperare în învățământul universitar nu sunt eligibile costurile indirecte.

#### 4.1 Plăți pe durata contractului

OP trebuie să efectueze următoarele plăți către PP:

- Prima tranșă de avans (prefinanțare)
- A doua tranșă de avans (în baza cererii specificate în raportul intermediar, potrivit Art. 4.3)

#### 4.2 Prima tranșă de avans (prefinanțare)

OP va plăti Promotorului Proiectului, în termen de 30 de zile de la data intrării în vigoare a Contractului, o primă tranșă de avans în valoare de **119286.00 EUR** corespunzător unui procent de 60% din suma maximă a grantului specificată în Articolul 3.1.

#### 4.3 Rapoarte intermediare și tranșe ulterioare de avans

Până la **07.02.2023**, Promotorul de Proiect trebuie să completeze un raport intermediar privind implementarea Proiectului prin intermediul platformei <http://app.eea4edu.ro/>, care acoperă perioada de raportare de la începutul implementării Proiectului, menționată la Articolul 2.2, până la 07.12.2022 (jumătatea perioadei de implementare a proiectului).

Raportul intermediar va consta în:

- Raportul narativ
  - Declarația de cheltuieli (toate costurile vor fi exprimate în Euro)
  - Declarația de onoare completată de reprezentantul legal al PP
- În cazul în care declarația de cheltuieli atestă utilizarea a cel puțin 70% din prima tranșă de avans, PP va atașa raportului intermediar și următoarele documente scanate:
- Extrase de cont care atestă cheltuirea sumelor din declarația de cheltuieli.

În măsura în care raportul intermediar demonstrează că Promotorul de Proiect a utilizat cel puțin 70% din avans, raportul intermediar va fi considerat ca fiind cererea pentru un avans ulterior și va specifica suma solicitată, de maximum **79524.00 EUR** corespunzătoare cu maximum 40% din suma alocată.

În cazul în care raportul intermediar arată faptul că un procent mai mic de 70% din avansul plătit anterior a fost folosit pentru a acoperi costurile Proiectului, Promotorul de Proiect trebuie să transmită un raport intermediar suplimentar la momentul la care a fost folosit un procent de cel puțin 70% din primul avans, raport care va fi considerat drept cerere pentru tranșă ulterioară de avans și va specifica suma solicitată, în limita a maximum **79524.00 EUR** corespunzătoare cu cel mult 40% din suma alocată.

This results was realised with the EEA Financial Mechanism 2014-2021 financial support. Its content (text, photos, videos) does not reflect the official opinion of the Programme Operator, the National Contact Point and the Financial Mechanism Office. Responsibility for the information and views expressed therein lies entirely with the author(s)

OP va evalua raportul intermediar și plăți (daca este cazul) Promotorului Proiectului următorul avans în termen de 60 de zile calendaristice de la data primirii raportului intermediar.

Această perioadă poate fi prelungită în cazul în care OP solicită documente sau informații suplimentare de la Promotorul de Proiect. În acest caz, Promotorul de Proiect va avea la dispoziție maximum 15 zile pentru a trimite informațiile și documentele solicitate.

#### 4.4 Raportul final și cererea de stabilire a grantului final

Pana la data de **30.11.2023**, Promotorul de Proiect trebuie să completeze prin intermediul platformei <http://apn.eea4edu.ro/> raportul final de implementare a Proiectului. Acest raport trebuie să conțină informațiile necesare pentru a justifica suma cerută pe baza contribuțiilor pe unitate, în cazul în care grantul ia forma contribuțiilor bazate pe număr de unități sau a costurilor eligibile suportate efectiv, în conformitate cu prevederile din Anexa III.

În conformitate cu prevederile Regulamentului aplicabil Granturilor SEE 2014-2021, Promotorul de proiect va înregistra în contabilitate cheltuielile efectuate în cadrul proiectului, pe conturi analitice distincte.

Raportul final va fi considerat ca fiind cererea Promotorului Proiectului de stabilire a grantului final.

Raportul final (Anexa IV a Contractului) va consta în următoarele documente:

- **Raportul Narativ**
- **Declarația de cheltuieli (toate costurile vor fi exprimate în Euro)**
- **Declarația de onoare completată de reprezentantul legal al Promotorului Proiectului**
- **Balanța contabilă și fișele de cont aferente proiectului;**
- **Extrase de cont care atesta platile efectuate** (către partenerii de proiect /participanții la mobilitati)

Toate documentele care atesta o plată (contracte, facturi, documente de plată, etc) vor purta mențiunea "**Decontat din contractul nr. 21-COP-0019, finanțat din Granturile SEE 2014-2021**".
